Eric P. Newman
Mercantile Money Museum
Mercantile Tower
Seventh & Washington
St. Louis, MO 63101

Dear Mr. Newman:

I've been meaning to write to you for some time. We've met several times at recent ANA conventions, and down at Armand Champa's "Invasion of Louisville". Last year in Pittsburgh, you, Walter Breen, and Ken Bressett were kind enough to autograph my copy of "The Fantastic 1804 Dollar".

This was the second coin book I ever read, after the Redbook. After just the first chapter, I was hooked on numismatics. I read it and reread it and remained fascinated by the numismatic detective work it described. I now have about 400 volumes of numismatic literature, but this book remains one of my favorites.

Would it be possible for you to send me a copy of an original manuscript, or any of your notes or correspondence relating to the book? Photocopies are fine, although I'd pay any reasonable amount to own originals. Of course, I'll pay all expenses involved. To my mind, this book is a classic work of numismatic literature, and I would be very glad to obtain any kind of material relating to it. I've already checked with Walter, and all of his materials were stolen or destroyed. I would be very grateful if you could provide any information from your files.

I plan to attend the ANA Convention in Seattle later this month, and I hope to see you there. I greatly enjoyed your previous Numismatic Theatre talks and am looking forward to this year's presentation. Thank you for your time.

Sincerely,

Wayne K. Homren

November 28, 1990

Mr. Wayne K. Homren
1027 King Avenue
Pittsburgh, PA 15206

Dear Mr. Homren:

In cleaning my desk I found your letter of August 6, 1990 concerning my 1804 book. It indicated you would see me in Seattle. I was there, but our paths didn't seem to cross.

I thank you for your kind comments about the book. I wrote something for the October 1990 NUMISMATIST on that subject and wonder if you saw it.

I have a big box full of all the research for the book and subsequent related matters. I presume you have the American Numismatic Society's COAC publication for an update on the subject published a few years ago, as this refers to the 25 years of action since the original publication.

Sincerely,

Eric P. Newman

February 1, 1991

Mr. Eric P. Newman
6450 Cecil Avenue
St. Louis, MO 63105

Dear Mr. Newman:

Thank you for your reply of November 28, 1990. I'm sorry I missed you in Seattle. I was at the convention, and saw you several times, but never got a chance to speak with you. I attended your Numismatic Theatre presentation on counterfeit detecting devices. I was delighted by the presentation, and thought it was the best talk at the show. You were mobbed by people after the talk, and I had to leave before you were free. I saw you again at the NBS meeting, but you left early.

I've appointed myself a committee of one to set up an ANA Numismatic Literature exhibit category in the name of the Numismatic Bibliomania Society. Ken Lowe, Myron Xenos, and John Bergman are all for it. We need to raise \$3,000 to endow the category; the ANA uses the interest to pay for award plaques and expenses. John says the NBS treasury has a surplus and could be tapped for some of the funds. I'd like to raise as much as I can from the members before dipping into the club till. Once the new officers take over I'll start publicizing the fund drive.

Anyway, as I mentioned in my last letter I am curious about your research into the 1804 Dollar. I do have your recent Numismatist and COAC articles. I'm glad to hear you still have your research materials for the Fantastic 1804 Dollar. Would it be possible for me to borrow or copy them someday?

I have a friend in Columbia, MO that I'd like to visit sometime before the ANA. Would it be possible for me to stop by to visit you? I'd love to see your museum and library. Perhaps a Friday or Saturday in March? I would also like to talk sometime about your visits to Pittsburgh. I'm working on a history of the Western Pennsylvania Numismatic Society, and would like to hear your recollections. The society has some photos taken during your visit.

Sincerely,

A handwritten signature in blue ink that reads "Wayne K. Homren".

Pittsburgh, PA 15206

Dear Wayne:

Thank you for your cordial letter of February 1, 1991. If you wish to stop in St. Louis on your way to Columbia, MO, I will be delighted to spend some time with you if I am in town. My museum and library are open from 10:00 to 4:00 every day, including holidays but the library is only available when either the curator or myself is present.

I look forward to your visit.

Sincerely,

Eric P. Newman

Dear Wayne:

I think a Numismatic Literature Exhibit category is an excellent idea for the ANA annual meeting exhibition. I believe we need a tentative budget on how much is to be spent each year and that can be raised by personal solicitation or from the Society. I do not get very excited about such endowments. The project may not stay viable, the investment of it may be a problem, etc. It certainly will be a nice way of having the choice literature exhibited.

Sincerely,

Eric P. Newman

May 11, 1973

Dr. Eric Jonsson
c/o Smithsonian Natural Museum
Vertebrate Tower
Savage, Washington
St. Louis, MO 63103

Dear Dr. Jonsson:

Thank you again for your letter, a very nice note about the Early American tapestry Convention last month. I borrowed a great deal while traveling through your library. I have a number of good pieces of the tapestry and will visit to your library. I'll send you a set in a few weeks.

Charles Davis and I had written an article about our visit to the museum; we'll send you a review and before publication. It would be great if you were to a listing of the tapestry items you placed on display at the Convention? I would like to mention this display in the article. Our review was very much in that regard.

Attached are two of the three color slides I mentioned in the letter. The first was not very good, unfortunately. But the other two were still available. The first is listed price.

I don't mind. I'll start collecting slides from you, although I find them very interesting. If the slides are to your liking, you may be a slave. But if you're still in a trading mood, perhaps you have some duplicate tapestries or tapestry items. I'd like to call on. If you have any questions.

Set of gold slides (two-color) with (printed) white weights and flat space. Red velvet inside box. \$15.00

Set of gold slides (2) 1/2 inch (printed) with (printed) white weights and flat space. Red velvet inside box. \$15.00

Sincerely,

Wayne K. Johnson

To Wayne Hornum

Items for exhibit at Early American Coppers Convention at Clarion Hotel, St. Louis, MO on April 2, 1992 through April 6, 1992. Owned by Eric P. Newman Numismatic Education Society. Values are included.

- 1931 Newspaper ^{article about} ~~page of~~ Eric P. Newman ~~(\$25)~~ at age 13 ^{was} a numismatist
- 1792 Advertisement in Philadelphia newspaper ^{to buy} ~~for~~ old copper for the U.S. Mint. ~~(\$300)~~
- 1788 Picture in Gentlemen's Magazine of Nova Constellatio copper coin. ~~(\$150)~~
- 1793 Samuel Sower, Exchange book ^{for cents and Pennsylvania pence.} ~~(\$150)~~
- 1791 Thomas Paine's "Thoughts on a U.S. Mint." ~~(\$200)~~ - describing the silver ^{center} cent

Mr. Wayne K. Hornren

Dear Wayne:

Thank you for your action on my behalf. On a scale of 1 to 10, you are a 10. A check for \$65, plus \$255, plus postage of \$6.40 is enclosed.

I enclose also a revised list of literature items I had on display, supplemented with a few extra comments. I am writing an article for the NUMISMATIST and the ASYLUM covering the Mease item which I rediscovered after 133 years.

An inventory of my library is being sent to you, as you indicated would be helpful to you. It was a pleasure to show the library to you, Charles and others. If there are further questions, please let me know, as the printout does not cover the full description which is in the computer.

My very best to you.

Sincerely,

Eric P. Newman

June 27, 1992

Dear Eric

During my visit in April
you expressed an interest in
my collection of old periodical
articles relating to numismatics.
My entire accumulation to date
is enclosed I'm afraid they're
in no particular order. Review
them at your leisure, and make
copies of anything you like.

July 9, 1992

Dear Wayne:

You were extremely thoughtful to send me a group of your sections of magazines containing numismatic episodes. I immediately sat down and read those I had not read or those I had not remembered I read. It was a cultural sauna for me. I really enjoyed it and I thank you.

I have made photocopies of selected articles but I found that of those you sent there are many duplicates.

These are as follows:

Commerce in the Colonies, Century 1884 (3 copies)
The U.S. Treasury Dept., Harper's Monthly 1872 (2 copies)
The Executive Dept. and Seals, Harper's Monthly Feb. 1869
(3 copies)
The Working of a Bank, Scribners 1897 (2 copies)
The Great Seal of the United States, Harpers Monthly July 1856
(4 copies)
Coin in America, Harper's Monthly 1860 (2 copies)

My suggestion is that I can send you similar items you do not have for one each of the first five items. I think this will benefit both of us.

Let me know if this appeals to you. All single items would be returned as well as other duplicates.

I just finished a numismatic literature article for the August Numismatist. It is based upon the early new items I exhibited at EAC in St. Louis. I hope you think it is interesting as I did much research to develop it.

My repeated thanks,

Eric P. Newman

Walter J. Wayne

Mr. John F. Moore
c/o "Small Town"
212 South 1st Street

Dear John:

Thank you for your recent letter. It was nice to receive the personal notice of interest. We are glad the investigation into various computer case records went well. I hope after this whole episode is behind, we'll remember that we're human & make constructive changes.

It will mean, keep my eye on those you want my good advice, especially on this. I know that's better to be sure you, you'll have other opportunities to receive them. I'll keep looking to receive you if you ever need it again. I will continue with my own, and I'll continue with the community's, including, perhaps, the local community.

Thank you for sending a copy of your recent inventory. It will be a good help to me in doing my "historical" or "historical" research. Thank you also for the copy of the letter to the local community. I hope it will be a good help to me in doing my research.

Thank you for the copy of the letter to the local community. It will be a good help to me in doing my "historical" or "historical" research. Thank you also for the copy of the letter to the local community. I hope it will be a good help to me in doing my research.

I'll look forward to your upcoming historical research. I'll be looking for your work in the future. I hope to see you there.

Sincerely,

Walter J. Wayne

Wayne Homren

July 23, 1992

Dear Wayne:

I wanted to telephone you but find your number is unlisted at the customer's request. I would like to talk to you and wonder if you will write it to me.

Your friend's coin detector is here and I already have one, but I'll try to find a customer. It has been dropped and slightly bent but I think I can straighten it out.

I am sending you a preliminary draft of the article which will be in The Numismatist in August (I am told). Because of your interest in numismatic bibliography I thought an advanced copy might be of interest.

I am getting together some publications to send you. One is both Pittsburgh and numismatically oriented.

My best,

Eric P. Newman

ERIC P. NEWMAN NUMISMATIC EDUCATION SOCIETY

6450 Cecil Avenue, St. Louis, Missouri 63105

September 1, 1992

Mr. Wayne Hornen

Dear Wayne:

Enclosed is a check for \$275 to Jerry Porter for the Maranville dial scale. This is the best I could obtain for it. Before ANA, I mentioned it to some others, with no takers. At the ANA, I left it in a dealer's case to sell, with the dealer keeping the excess over \$275.00. I think it was sold for \$300 the last day. I will tell you the dealer's name if you wish. Perhaps the old owner will be delighted.

I appreciate the fact it was offered to us for our collection, and when I already had one, I tried to sell it as you asked me to. I am glad to do favors like this because people do me favors so often.

Thanks for the opportunity.

Sincerely,

Eric P. Newman

January 9, 1996

Dear Wayne:

My article on the first American numismatic writing was in the August 1992 Numismatist. Your excerpt from Mease was first published by the NY Historical Society in 1821 as he stated. I was not aware it was copied in 1822 for the Saturday Magazine. See my article for details.

I hope I have been helpful. Keep digging for new data.

A copy of the present draft of the Nova Constellatio paper is enclosed. Any prompt suggestions are welcome.

Sincerely,

Eric P. Newman

August 28, 1998

Dear Wayne:

Eric was describing your new enthusiasm for the advertising aspect of numismatic literature and how he enjoyed speaking with you in Portland.

In the course of doing other work with our uncataloged price lists, I came across an advertisement and immediately thought of your new collecting interest.

Eric happily agreed that I should send you a copy of the ad. If I come across any other numismatic advertising leaflets etc. I will be glad to inform you, etc.

Best of luck with your collecting.

Sincerely,

Thomas Serfass

From Eric P. Newman

Your conduct of the biblio meeting was great.

I was never sent the last two Asylums for 1998 or the first two in 1999. Please send them.

If I owe dues please let me know as I thought I was current.

Subj:	Nicholas Pike Arithmetic Publications
Date:	11/15/2000 7:12:28 PM Central Standard Time
From:	[REDACTED]
To:	[REDACTED]

I was delighted to have Edward A. Krivoniak make reference to the early American arithmetic books of Nicholas Pike through reading Isaac Asimov who seemed to write about everything. This is serendipity at its best. I have both of the Pike editions in my library and used them and other early American mathematics books and pamphlets to prepare the tables beginning on page 471 of the 4th edition of The Early Paper Money of America, etc. The ability of Americans to make complex money exchange calculations during the American Colonial and Confederation period and beyond was astounding. All this points to the broad and exciting scope of numismatic literature.

Eric P. Newman
